

# FARMERS' MARKETS MAP & WEEKLY SCHEDULE

## What is a Producer-Only Farmers' Market?

A producer-only farmers' market is a public and recurring assembly of farmers or their representatives selling the food that they produced directly to consumers. Though not all of our markets are considered producer-only (see our website for more details), they each provide a unique community space for you to access fresh and local foods directly from the growers and makers, ensuring your dollars are going directly to the tasty food and people who grew it.

- |                            |                          |                           |
|----------------------------|--------------------------|---------------------------|
